This Summarize, Review, and Practice is brought to you for free and open access by the Biology at DigitalCommons@IMSA. It has been accepted for inclusion in Nature of Science by an authorized administrator of DigitalCommons@IMSA. For more information, please contact pgarrett@imsa.edu, jean@imsa.edu.

Nature of Science Pre-Questions

Answer the following questions in your notebook. Be honest and thorough. What you write here will be used later to reflect on what you learn in this unit.

1. What is Evolution? Why is Evolution a Theory?
2. What makes science different from other fields?
3. What is the method of science? How do we "do" science?

After you complete these questions, don't forget to read (and take notes) on the Nature of Scientific Knowledge handout!
